ŁAZIENKI
MUSEUM

Routes and tracks
in the ŁAZIENKI
GARDENS
THE FLOWER ROUTE

**With your kids you can explore
the twisting pathways of the
Łazienki Gardens.
Just take a walk and uncover
many a blossoming secret.**

The map in your hands shows activities you can do on your own. Some of them have to be done in places marked with numbers on the map, while the tasks marked with a flower symbol can be performed in any place in the gardens. We hope that this blossoming trip will prove an exciting adventure.

The poem “Roses in the cloud” will brighten your trip and rest among the flowers in our gardens.

Smell the flowers in the garden flowerbeds.
Can you name them?

Relax surrounded by flowers.

At the end of May the alleys are decorated with lemon, orange, and bay trees. Do you know where they spend winter?

Talk about your favourite flowers. Do you know when they blossom?

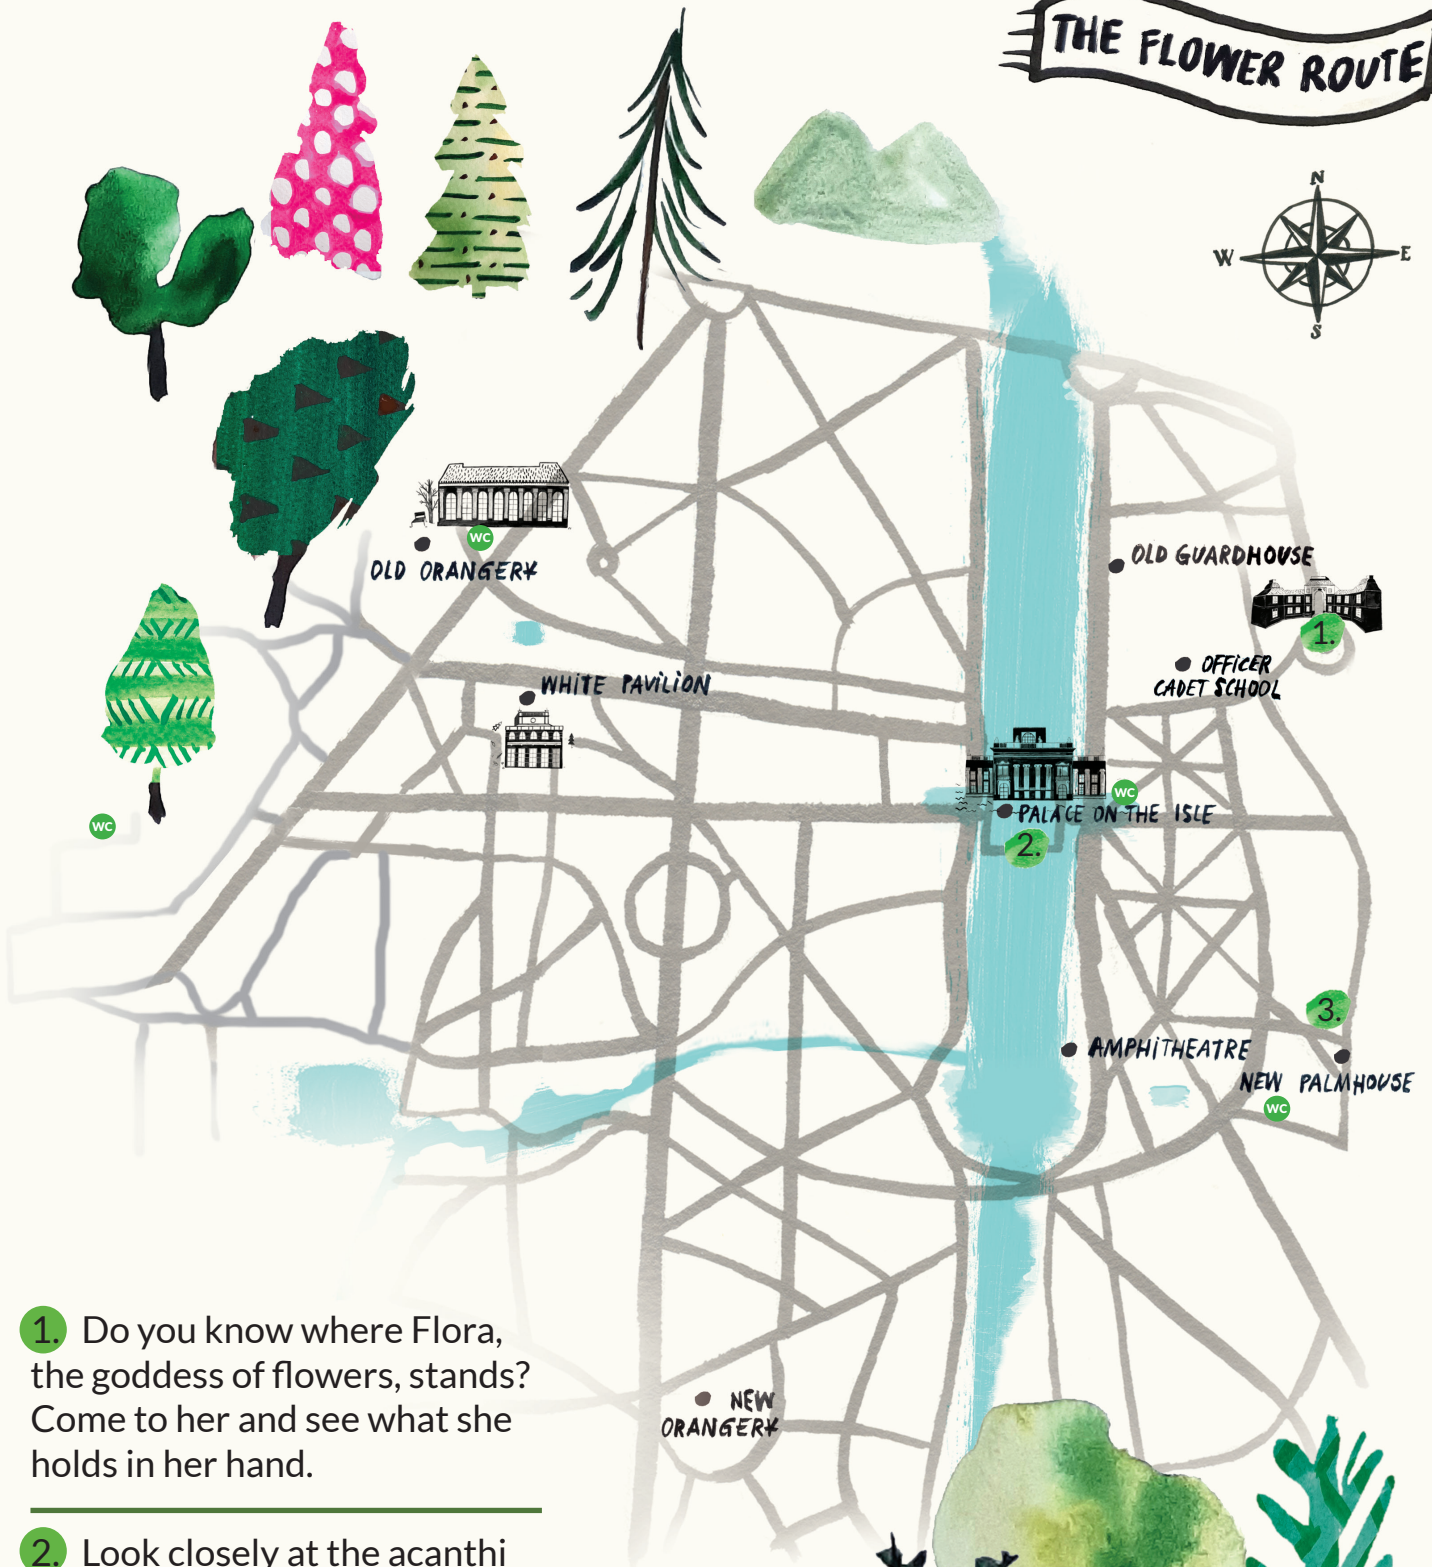

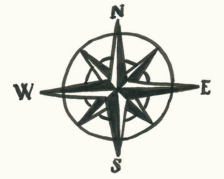

Observe the colours of the petals.

Did you know trees blossom as well? What grows in place of the flowers?

THE FLOWER ROUTE

1. Do you know where Flora, the goddess of flowers, stands? Come to her and see what she holds in her hand.

2. Look closely at the acanthi crowning the columns at the Palace on the Isle. These are decorative motifs in form of wild Mediterranean plants.

3. Visit the flowerbed by the New Palmhouse. There you will find many decorative herbs, tulips, and other plants.

Reference map

Roses in the cloud

I've seen roses in the sky,
on a cloud they were, so high,
Soft and heavy they were all.
Hugging gently mountain slope,
and I wondered, can they sleep,
smelling all those roses sweet?
